COVID-19
RESPONSE

Visulization Introduction in 10 words:

Presenting impacts of COVID-19 in public health, education, and economy.

Audience: For those who would like to know how COVID-19 influences our life in multiple dimensions

Why Interesting & Original?

We design a dashboard to present the trend and degree of the impacts of COVID-19 in three main aspects: public health, education, and economy

It helps users in understanding the global information of COVID-19 from several aspects.

EXPLAIN WHO DID WHAT ?

Web Page Framework
Design: Shihao

Health page + related
data collection: Yang

Education Page + related
data collection: Yiwei

Economic Page + related
data collection: Jiayi

DATA AND TOPIC AS NEEDED

To understand the project, users should have a basic understanding of what is the coronavirus pandemic.

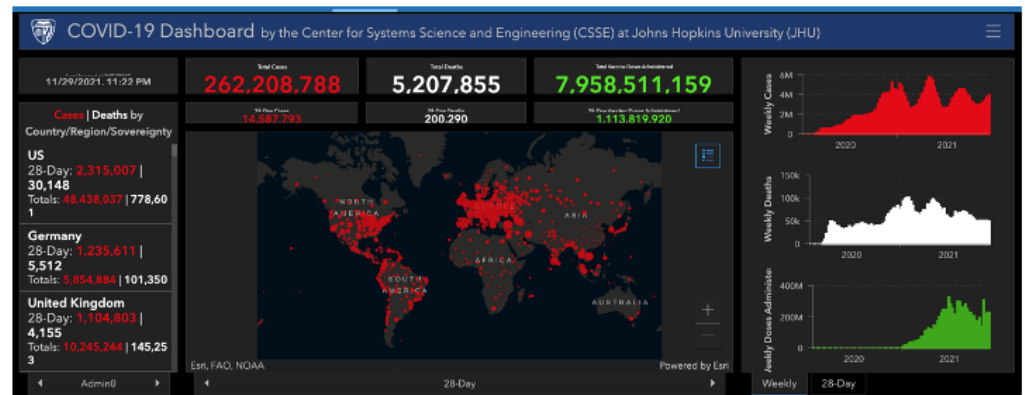

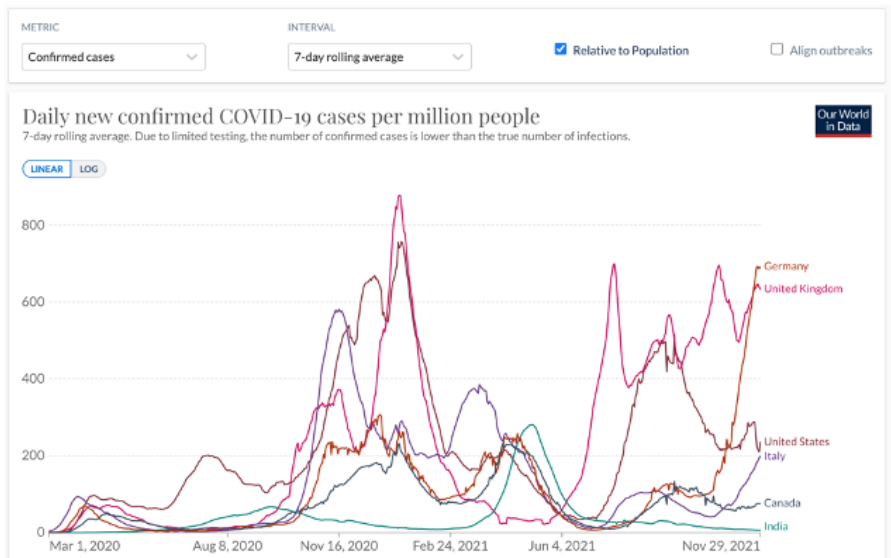

Thanks to Stanley Dai for sharing

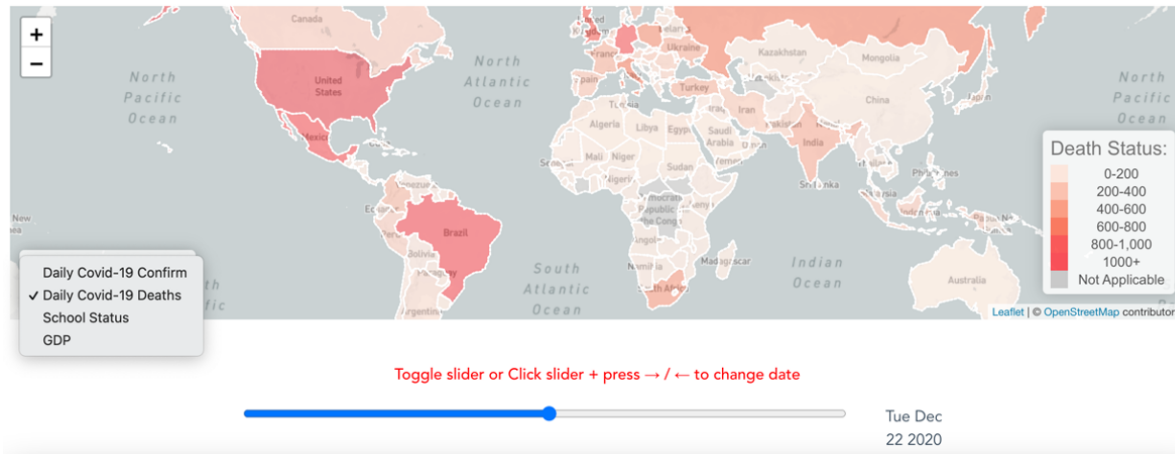

Data Sources:

-
1. Health: JHU CSSE and Our World in Data (owid) on Github
 2. Education: UNESCO Institute (The United Nations Educational, Scientific and Cultural Organization)
 3. Economy: WTO and IMF (International Monetary Fund)
 4. Spatial data: World Atlas TopoJSON

RELEVANT TOPICS

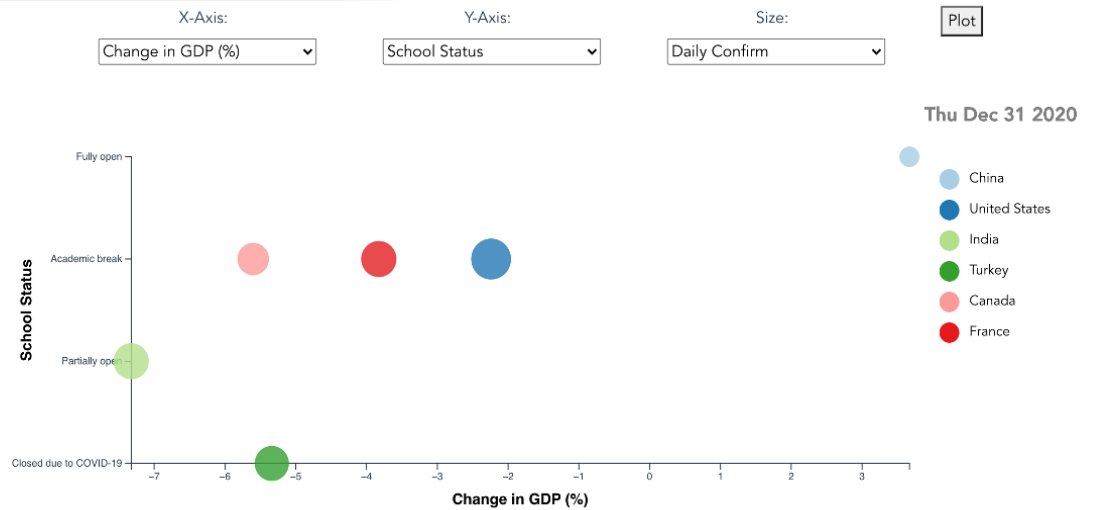

HOW IS OUR WORK ORIGINAL?

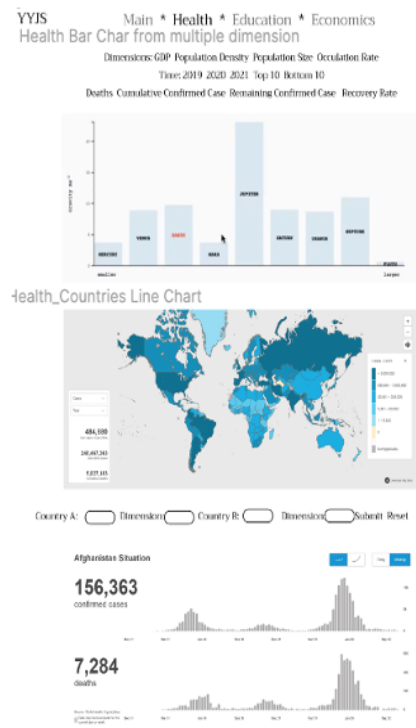

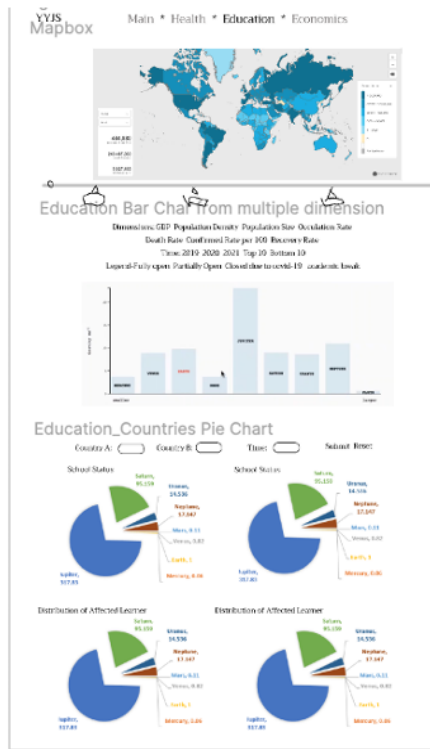

Choropleth from 4 dimensions

Bubble Chart in 3 dimensions

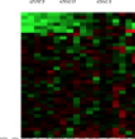

DESIGN PROCESS(FIGMA)

Economics GDP Tree Map & Line Chart

Economics Unemployment Heat Map

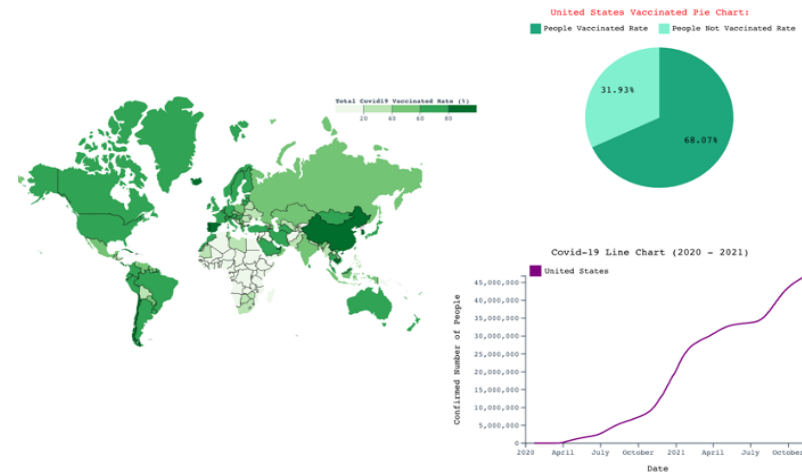

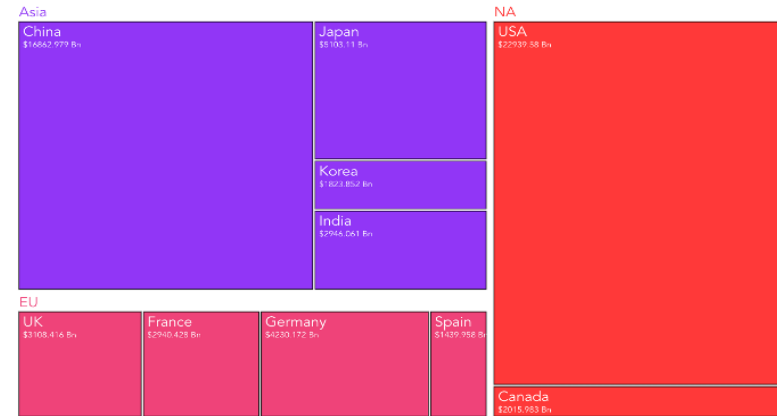

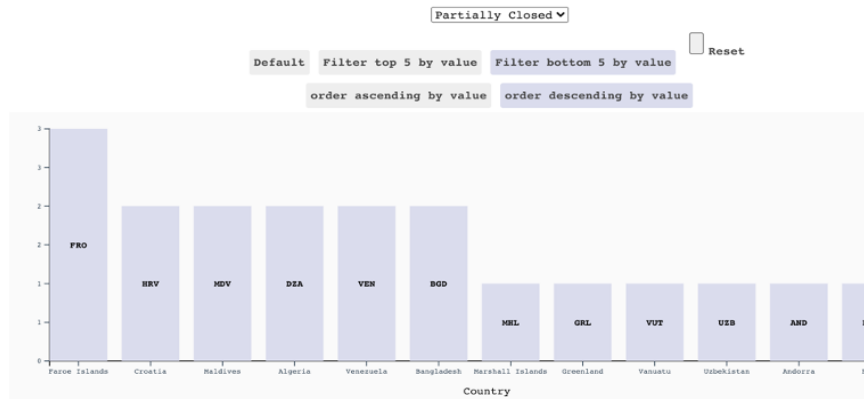

Economics Export Import Chord Diagram

WHAT WE HAVE BUILT WITH D3

Duration of school closures(March 2020 - October 2021)

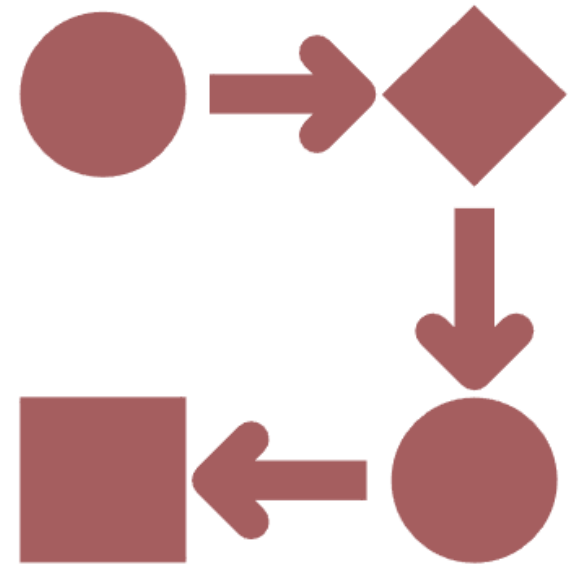

WOULD HAVE DONE DIFFERENTLY?

Intergrating all data in to a single data set
before developing the dashboard.

Adding more dimensions: international
travel, food, e-commerce

Thank You!
